GPS maps

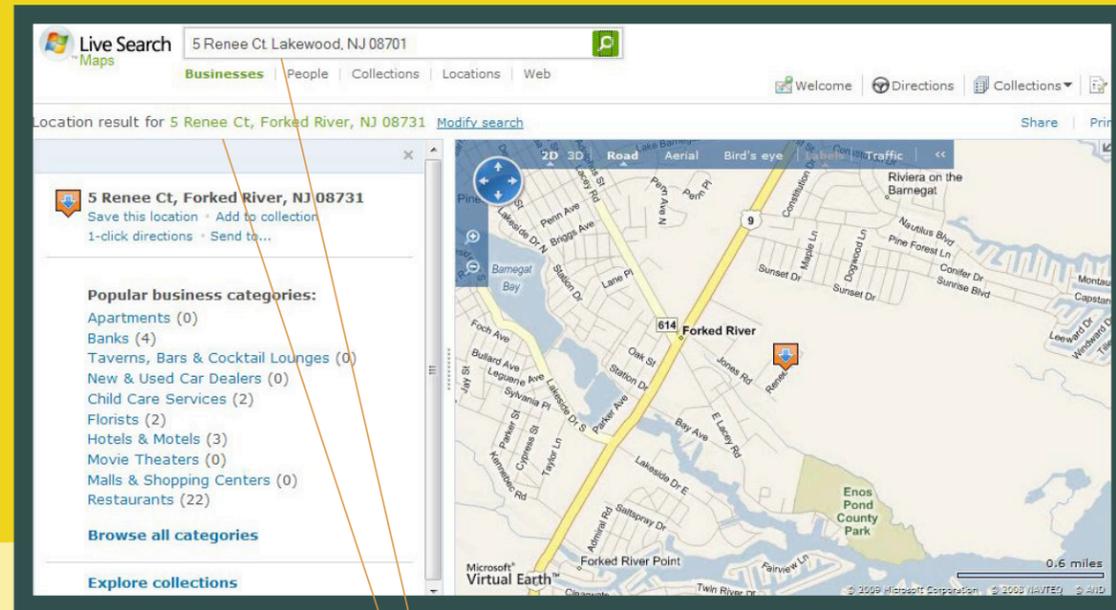

did you know that **80% of new developments** built in the past 4 years are not available on any GPS device?

we are sure you know that.

as a builder or land developer, it must be frustrating not having your development mapped with **any GPS or online mapping system**, even though construction began **three to four years** ago.

online maps

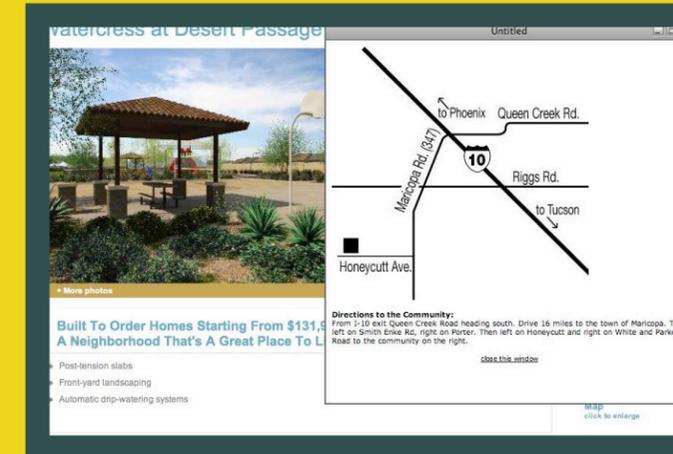

searched: 5 Renee Ct. Lakewood, NJ 08701

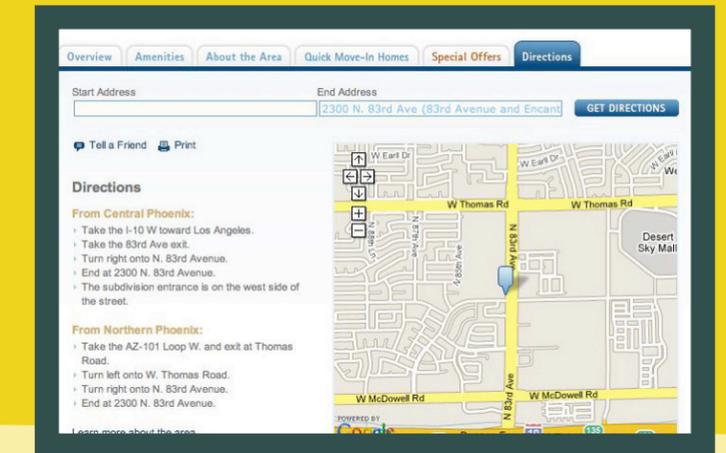

given: 5 Renee Ct. Forked River, NJ 08731 - **wrong address!**

why? because Renee Ct. was built **four years ago** and is still not included in the database of the map provider.

builder's website

“the old” - static driving directions

“the new” - interactive online driving directions

be found!

so, you don't have **interactive driving directions on your website, potential clients** can't find you on their GPS and you can't let **potential buyers** navigate through the multiple sites that you're offering.

it's time to

putmeonthemap.com

please visit

will expedite the process of updating new street location data with virtually all **online and GPS** data providers. your development might appear prior to ground-breaking. we will also provide you with a **digital map** and instructions on how to create an interactive map for your website.

and all of this is FREE!

all you need to do is **simply upload your final plot maps** in DXF or DWG format on our website at the time of local government approval.

and by FREE we mean FREE. we are sponsored and powered by the major map data providers, to expedite the collection of new street location data.

and **take advantage of this great opportunity.**
